Mr. Peel:

My comments re O&M Survey followup: (Seriated with your questions)

1. No. Those in O&M know generally, but our customers don't. Regulation corrections needed.
2. Yes! and there's proof in the O&M files.
3. No. Those outside O&M don't know about it.
4. I believe we should avoid pressing for its issuance. Good management is sold by deeds and results, not words.
5. No. Believe it should be discontinued.
6. Yes. - although we need to get the DCI and other higherups to ask for our "advice and assistance".
7. Yes.
8. Yes - we need "leads" for our sales effort.
9. That depends on what is in O&M and what else is in the office of the Comptroller. O&M, for that matter, could be put under each Deputy Director.
10. Literally speaking, we do nothing but O&M work. If we take on other significant functions, we should be called Management Staff. The name is not important.
